

**DEPARTMENT OF PESTICIDE REGULATION
LICENSING AND CERTIFICATION PROGRAM
CONTINUING EDUCATION WORKSHOP**

The Department of Pesticide Regulation (DPR) will be holding workshops for providers of continuing education in order to solicit ideas and comments regarding proposed changes to California Code of Regulation, Section 6513, located at the following link: <http://www.cdpr.ca.gov/docs/legbills/calcode/subchpte.htm#0301> .

The changes will add a requirement for reporting to DPR the same information that providers are currently required to maintain, as well as the course completion date. These changes are a necessary consequence of providing the convenience of on-line renewal to our licensees and certificates holders.

The Workshop will include a summary of the rationale for the changes, a copy of the draft language and examples of the DPR web page changes that will simplify the transition. There will also be an opportunity for comments, questions and suggestions. The next workshop will be held in Riverside, CA, as follows:

Date and time: 24 January, 2011, at 2-3 p.m.
Riverside County Offices
4080 Lemon Street, Room 13
Riverside, CA

Please R.S.V.P. in the event that there are any unforeseen changes to the workshop schedule. For more information or questions, please contact Margie Read at mread@cdpr.ca.gov .
